## DETAILED ACTION

Claims 1-25 are pending as amended 7/13/07

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

1. Claims 1-11, 13-23 and 25 are rejected under 35 U.S.C. 102(b) as being anticipated by Snyder(US 2,490,484).

Snyder teaches a hydraulic pumping system having a piston (or plunger) moving in a cylinder (2) for pumping water with the associated valves for operation of the piston in the cylinder by reciprocal action – see figure 1. The piston downward motion is by gravity, assisted by the weight of the water tank (23) above and coupled to the piston by a piston rod (14). The downward movement of the piston is impeded by the counter-weight (33) attached by a hoist with pulleys (12), which would act as the positioning device as claimed. The impeding force can be artificially adjusted by changing the weight of the counter weight. Snyder also teaches the method of pumping as claimed. Connection to a desalination system is intended use of the pump assembly.

### ***Allowable Subject Matter***

Claims 12 and 24 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The following is a statement of reasons for the indication of allowable subject matter: The closest prior arts, including the ones cited by the PCT Examiner does not teach or fairly suggest use of an electric actuator and brake assembly for interacting with the pulley assembly to impede the reduction of the volume of the enclosure.

### ***Response to Arguments***

Applicant's arguments with respect to the rejected claims have been considered but are moot in view of the new ground(s) of rejection.

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
